SUMMARY

Front-end focused software developer with 2 years of experience building web applications. Passionate about creating clean, user-friendly interfaces using modern JavaScript frameworks. Comfortable working in fast-paced startup environments and collaborating in cross-functional teams.

SKILLS

Programming Languages : JavaScript (ES6+), HTML5, CSS3, Python (basic)

Frameworks & Libraries : React, Vue.js, Tailwind CSS, Bootstrap

Tools & Platforms : Git, GitHub, VS Code, Figma, npm

Back-end (basic) : Node.js, REST APIs (consumption)

Databases : MySQL (basic CRUD queries)

Other : Responsive design, browser DevTools, Agile/Scrum

WORK EXPERIENCE

Front-End Developer — Pixelify Studio, Austin TX (Jan 2023 – Present)

- Built and maintained React-based dashboard used by 5,000+ daily active users.
- Collaborated with UX designers in Figma to implement pixel-perfect UI components.
- Integrated third-party REST APIs (Stripe, Twilio) into existing React applications.
- Improved page load time by 30% through code splitting and lazy loading.
- Participated in bi-weekly sprint planning and daily standups.

Junior Web Developer — FreelancePath (contract) (Jun 2022 – Dec 2022)

- Developed landing pages and small web apps for 8 clients using HTML, CSS, and JavaScript.
- Used Vue.js for one e-commerce client project.
- Managed version control with Git and delivered projects on schedule.

PROJECTS

TaskFlow — Personal Project (github.com/alexmorgan/taskflow)

- A full-stack task management app built with React (front-end) and Node.js/Express (back-end).
- Stores data in a JSON file (no database used) and exposes a simple REST API.
- Deployed on Vercel (front-end) and Render (back-end).

WeatherNow — Personal Project

- A weather dashboard consuming the OpenWeatherMap API, built with vanilla JavaScript.
- Responsive design supporting mobile and desktop viewports.

EDUCATION

B.S. Computer Science — University of Texas at Austin (Graduated May 2022)

Relevant coursework: Data Structures, Algorithms, Web Development, Database Systems

CERTIFICATIONS

- Meta Front-End Developer Certificate (Coursera, 2023)
- JavaScript Algorithms and Data Structures — freeCodeCamp (2022)
